Installation / dismantling (forfait)	300,00 €	900,00 €	This service includes the cost of assembling / dismantling experiments in aquatic mesocosms, excluding exceptional expenses of consumables and equipment
OUTDOOR AREAS			
Aviary (unit)	0,30 €	0,60 €	This service includes the provision of the aviary including cleaning, watering troughs, and general maintenance
Terrestrial macrocosms (12 units)	0,50 €	4,00 €	This service includes the provision of 12 terrestrial macrocosms per day
Aquatic mesocosms ≤ 9 months (unit)	1,00 €	4,50 €	This service includes the provision of a mesocosm (fiber and sheet ponds) per day
Aquatic mesocosms > 9 months (unit)	0,75 €	4,00 €	This service includes the provision of a mesocosm (fiber and sheet ponds) beyond the 9th month
Wave beaters (unit)	9,00 €	40,00 €	This service includes the provision and the electrical consumption of a mesocosm wave beater whose use is restricted outside the winter period including the adjustment and maintenance of the device
INDOOR AREAS			
Non specific laboratories (unit)	6,00 €	18,00 €	This service includes the provision of a standardized laboratory, including the costs of treating biological waste, current consumption of water and electricity and maintenance
Fish facility (room)	6,00 €	42,00 €	This service includes the provision of a room of the fish facility except electricity (air conditioning and heating) and water
PEHD mesocosms	1,50 €	9,00 €	This service includes the provision of a mesocosm per day
Research greenhouse (cell)	6,50 €	44,00 €	This service includes the provision of a climate control cell of the research greenhouse including maintenance, waste treatment, air conditioning and current fluid costs, excluding photosynthetic lighting costs
Production greenhouse (bench)	2,00 €	10,00 €	This service includes the provision of a plant production bench including the costs of treating biological waste, greenhouse climate management, current water and electricity
Production greenhouse (25m²)	6,50 €	38,00 €	This service includes the provision of a surface of the production greenhouse including the costs of treating biological waste, greenhouse climate management, current water and electricity
Technical hall (unit)	6,00 €	18,00 €	This service includes the provision of the hall of the greenhouse including waste treatment costs, current water and electricity
Germination room (unit)	6,00 €	18,00 €	This service includes the provision of the room, including waste treatment costs, current water and electricity
INSTRUMENTATION			
Fluoroprobe (BBE Moldaenke)	55,00 €	155,00 €	This service includes calibrated probe with its manual and peripheral equipment
Benthos Torch probe (BBE Moldaenke)	55,00 €	155,00 €	This service includes calibrated probe with its manual and peripheral equipment
Multiparameter probe EXO2 (YSI)	55,00 €	155,00 €	This service includes calibrated probe with its manual and peripheral equipment
Electric fishing equipment	53,00 €	155,00 €	This service includes the provision of fishing gear with its manual and suitable clothing (only for people trained in electric fishing)
Flow Cytometer (day)	165,00 €	200,00 €	This service includes the use of equipment by specialized staff and the provision of results including current consumables. The number of samples that can be analyzed per day depends on protocols and samples
Autoanalyzer (day)	320,00 €	500,00 €	This service includes the use of equipment by specialized staff, calibration and delivery of results including current consumables. A day of analysis is equivalent to a maximum of 160 samples, ie a public unit price of 2 € per sample for a nutritive salt
Freeze dryer	20,00 €	40,00 €	This service includes equipment with its manual
Spectrophotometer (day)	65,00 €	100,00 €	This service includes the use of equipment by specialized staff, calibration and delivery of results including current consumables. The number of samples per day of analysis varies between 15 and 60 samples per day according to the protocols and the calibration range
MICROCOSMES			
Chemostat platform Ecotron IleDeFrance	55,00 €	120,00 €	This service includes the provision of a room of chemostats comprising 12 experimental units, running costs and maintenance costs
Aquatic microcosms Ecotron IleDeFrance	45,00 €	350,00 €	This service includes the provision of a battery of 12 aquatic microcosms in an Ecolab cell, including current running costs, maintenance costs and the cost of renting an Ecolab cell regulated in climate as required
MISCELLANEOUS			
Water (m³)	Price paid	Price paid	Contribution to the pro rata of water consumption including management fees
Electricity (KW/H)	Price paid	Price paid	Consumption on a pro rata basis of electricity consumption including management fees
Mileage allowances (€/km)	0,25 €		Consumption on a pro rata basis of vehicle use costs (reserved for contract workers in public laboratories), including management fees
Specific consumables	Price paid		Pro-rata invoicing of specific consumables (food, prophylaxis, veterinary intervention, experimental consumables, medicines, etc.) including shipping costs and management fees
